# GMT ECO BLU – Live Fuel Monitoring for Light & Heavy Vehicles

€7000

AVERAGE ANNUAL  
FUEL SAVING PER  
HEAVY COMMERCIAL  
VEHICLE

If you think Vehicle Monitoring is not affordable, then think again. In fact, the **money** you save, **MORE THAN** covers the cost of implementing it, resulting in **improved productivity and lowered fuel costs. You will make money!!!**

We at GMT Connect are now offering Eco Blu Vehicle Monitoring for your fleet. Get Live Fuel Reading 24/7. Start Saving Today.

Whether you have 1 or more vehicles, Vehicle Monitoring will pay for itself over and over again.

## Key Benefits!

- 25% Fuel Expenses
- 30% Idle Time
- 10% Mileage Driven
- 15% Overtime

## Simple & Easy To Get Started!

Eliminate the blind spot in your business today. Know exactly where vehicles are, what consumption they are doing and where they have been.

Field Staff will be more productive and you will improve your customer service. You will know when the customer was visited and how long they were there.

### ECO BLU TYPES

- ECO BLU Monitoring for Van/Car Fleets
- ECO BLU Monitoring for Truck Fleets
- ECO BLU Monitoring with Tacho (Auto Download)
- ECO BLU Monitoring with Temperature Monitoring

\* Up to 25% - Based on past performances of Monitored Vehicles.

### Industry Case Study:

**Challenge:** Company 'A' were not managing to service their customers in a cost effective and timely way, even though the drivers reported they were working 'flat out'. Margins were tight and they did not know if they could afford monitoring.

**Solution:** Through a referral, they implemented the GMT Connect ECO BLUE monitoring system and recorded all their customer locations.

**Results:** Within a few weeks, they had 30% more time during the day to service their customers. The GMT Connect System naturally eliminated 'Long Lunches', 'Private Jobs' and unnecessarily long customer visits, thus **Increasing Productivity and Reduced Overtime. (Saved €19 000)**
